Forstrådens Gran Cycle Route

21.1 km
479 m elevation

The Forstrådens Gran Cycle Route takes you through a varied landscape in Rold Forest and the area around Rebild Bakker. The route starts and ends at RebildPorten and mainly follows cycle-friendly gravel roads, making it suitable for a regular bike.

Along the way, you cycle through Stendalen, Mørkeskov and Urskoven, where forest, hills and open landscapes create a varied nature experience. The route also takes you past Store Økssø, where there is a good opportunity to take a break.

At just over 21 kilometres, the route is ideal for those who want a slightly longer cycling trip in the Rebild area. The route continues past the Jamborette site and on to Forstrådens Gran, one of the forest's giants and a natural highlight of the route.
